issue.

Hello Commissioners,

I would like to thank you again for listening to our concerns yesterday at the County Commissioners meeting.

We talked about the dust and noise related to the drilling machine and being very close to our homes. We viewed a video from my property of the drilling machine, approx 500ft away. Commissioner Barney even asked Tanner directly to work on controlling dust. Well today April 9th, the day after the commissioners meeting, Jennifer Adams sent me videos of the drilling machine approx 150ft away from her home. One is inside the house from an upstairs bedroom, the other is from outside on the porch. I honestly cannot believe how loud it is inside the house with the windows closed. There doesn't appear to be any dust mitigation.

This goes on all the time, all day long. If its not a drilling machine, its a dozer, or a loader or a rock crusher which sounds like a locomotive outside your window.

Please understand how disturbing this is to those of us in the neighborhood. We have to leave our homes to get peace and quiet.

Exhibit 58 also contains two videos.

Video 1 - approximately fourteen seconds long.

Video 2 - approximately eleven seconds long.

Both attached separately to the record.
