

Hitch Hikin' Spike

Oregon State Noxious Weed Mascot

2019 Cost-Share Program

The Crooked River Weed Management Area provides cost-share assistance to private landowners to help control noxious weeds in the Crooked River Watershed. The CRWMA will fund the cost of the herbicide or biocontrol agent only; the landowner is responsible for the costs associated with application or an applicator.

1. Landowner completes this application and return to CRWMA by **May 3, 2019**.
2. CRWMA board will review applications by **May 10, 2019**. Approval of the application is **required** prior to herbicide treatment and/or release of biocontrol agents. Applicants will be notified of results. **No receipts dated before approval will be accepted.**
3. NOTE: Some areas or situations may require a site visit.
4. CRWMA will work with approved applicants to acquire appropriate product, establish before and after photo monitoring, and GPS points/mapping requirements.
5. Landowner is responsible for the proper application of herbicide. Carefully read and follow the herbicide label. It is the responsibility of the pesticide applicator, not CRWMA to read and follow the herbicide label and to fully evaluate the application site and conditions. Remember to use correct spraying practices to ensure safety to you and the environment. If using biological control agents release in the manner prescribed by the supplier.
6. Landowner agrees to give CRWMA access to survey and monitor treatment sites.
7. Satellite occurrence means small isolated infestations. Those larger infestation sites will be given least priority.
8. A list of Commercial Applicators is available for interested landowners. CRWMA is not responsible for applicators work being performed.

| 2019 Cost-Share Program funded Noxious Weeds | |
|--|---|
| African Rue | Dalmatian toadflax |
| Houndstongue | Jointed goatgrass |
| Leafy spurge (satellite occurrence) | Musk thistle |
| Mediterranean sage | Scotch thistle |
| Perennial pepperweed | Yellow flag iris |
| Diffused and Spotted knapweed | Medusahead (satellite occurrence) |
| Yellow starthistle | Russian knapweed (satellite occurrence) |
| Whitetop (satellite occurrence) | Wild Carrot |
| Possible assistance for other County A listed weed | |

*Biocontrol available for leafy spurge, dalmatian toadflax, Russian knapweed, and Canada thistle

If Yes, Agency Name: _____

Herbicide: _____

(Must attach map and/or pictures or any other information for consideration)

Description of area to be treated, include the use of the land such as pasture, subdivision, lot, hayfield, lawn, subdivision parks, native grassland, etc. Please be specific on the location and provide a map and picture of the area. Maps can be made on google earth, Crook County GIS, etc. Our website has noxious weed information available. <https://crwma.co.crook.or.us/>

RELEASE and INDEMNITY

The undersigned (applicant) acknowledges that they have a legal and moral duty as the owner or occupier of land to control noxious weeds. They also recognize that control measures sometimes involve risks to desirable plants, trees, animals, and humans. In consideration of the benefit obtained by reducing the burden of their responsibility to control noxious weeds and in the recognition of risks which may be encountered, the undersigned hereby releases, holds harmless and indemnifies and defends Crooked River Weed Management Area, its agents and employees, from all loss, claims, costs and expenses, damages, lawsuits or judgments resulting from damage or destruction of property, personal injury or death of any person or persons which arise from applicants conducting weed control activity in area described in the Cost-Share Program Application including but not limited to costs of suit and reasonable attorney fees. Failure of cooperator to purchase and apply chemicals as provided for in this Agreement shall constitute a default of this provision and cooperator shall immediately refund all sums received from the project sponsor, in addition to all other sums allowed by law.
